

Breaking the Math and Science Curse

We've got to escape the Math and Science curse. Just like the story we've got escape through a hole. So how will your group do it? Here are the things you will need to do to escape!

How to Break the Curse

Each team must create a Rube Goldberg machine with 7-10 steps per group.

Each machine must include:

- Simple machines (at least 4!)
- Forms of energy (at least 3!)
- Draw a diagram labeling pushes and pulls.

Presentations must include:

- Use complete sentences to explain the cause and effect relationship between the parts of your machine.
- Use division to explain how
